I hereby authorize the above work to be done with the necessary materials. BBT and BBT's employees may operate above equipment for purposes of testing or inspection, at my risk. An express mechanics lien is acknowledged on above equipment to secure the amount of repairs thereto. It is also understood that BBT will not be held responsible for loss or damage to said equipment or add on accessories in case of fire, theft or any other cause beyond BBT's control. Equipment left after 2 weeks of notification of completion will incur a charge of a minimum of $1.00 per day. Equipment left over 60 days after notification become property of BBT Inc..

Upon shipment of a tank from BBT to a testing facility, BBT no longer has control of the tank. This process usually takes at least one week and generally averages about four weeks before the tank is returned to BBT. BBT is not responsible for the cost of the tank testing either if the tank passes or fails inspection. BBT cannot be held liable for damage inccured during shipping you must insure your equipment.

Specific to Autococker Owners.
We are currently not accepting work on non Shocktech based guns. If you have Shocktech pnuematics and or a Shocktech grip frame on any other autococker that is considered an exception and we will work on it no matter the guns manufacturer.
Also please keep in mind we do not repair parts from other manufacturers we replace then with ours.
If you want your gun to rip when you get it back, we're your guys. If you want it as cheap as possible we're not.
